INDIANA NURSERY AND LANDSCAPE ASSOCIATION

International Certification

2009 Indiana Sponsorship Opportunities

Certified Landscape Technician Program

In partnership with:

INDIANA NURSERY AND LANDSCAPE ASSOCIATION

The CLT—What Is It?

The international Certified Landscape Technician (CLT) program is an important part of any landscape company. Landscape contractors, supervisors, crew leaders / foremen, and field technicians who are certified as CLTs are recognized internationally as qualified professionals. This can mean better wages and enhanced profits as the public becomes more aware of the value of doing business with a CLT.

This test was first developed by the California Landscape Contractors Association in 1983. In 1994, the Associated Landscape Contractors of America (ALCA), now known as PLANET, purchased the rights to the test and began to license state associations to administer the test in their home state.

The Test

This is a hands-on test based on international standards. It recognizes proficiency in a wide range of skills in landscape installation, maintenance and irrigation, plus related safety issues.

The Test Site

A test site was constructed and is maintained at the Daniel Turf Center at Purdue University in West Lafayette, Indiana. It was developed as collaboration among industry professionals primarily with donated resources.

In order to continue to grow this program, alterations and additions need to be made to the test site each year.

Become a CLT Sponsor

Help further the education and professionalism in the green industry by becoming a CLT Sponsor and enjoy these benefits...

- Your company's name will be seen by hundreds of landscape contractors on promotional signage at the test site.
- A commemorative plaque for your office. (Bronze Level and above)
- Listing at all CLT displays and at the Indiana Green Expo.
- A listing in the INLA magazine.
