

Build a Career That Lasts. Earn this Badge!

Start Now! Register for This Class at www.icpi.org/educate.

Sales of concrete pavers and segmental concrete pavement system projects continue to reach post-recession highs.

Grow with the industry. Become an ICPI Certified Concrete Paver Installer, THE industry's recognized credential that demonstrates to customers your knowledge and skills. You will be able to:

- Enhance your efficiency and bottom line by using industry best practices
- Improve your personal and company's marketability
- Help protect yourself and your company in customer disputes by adhering to ICPI best practice installation guidelines

Get Started

It's a three-step process:

1. Participate in this ICPI Concrete Paver Installer Course and achieve a passing grade of 75% or above on the course exam.
2. Document with ICPI that you have a minimum of 10,000 square feet total installation experience on at least five projects.
3. Receive your certification.

If you don't have the required installation experience yet, you can still take the course and pass the test now, then get certified when you complete your 10,000 square feet.

About the Course

This two-day classroom course is an introductory course in the construction of interlocking concrete pavement systems using concrete pavers and slabs. The registration fee includes participation in the course, a student manual and the course exam.

What You'll Learn

- Job planning and layout
- Safety
- Soil classification and compaction
- Bedding and joint sand
- Paver selection and installation
- Use of labor-saving specialty tools
- Edge restraints
- Base material selection and compaction

Beginner
Get involved in the industry

- Participate in ICPI Boot Camp training

0919

"The concrete paver industry needs qualified contractors and installers to meet the growing residential and commercial demand for concrete paver products and systems. Learn the craft from experienced professionals through ICPI and build a career that can last a lifetime."

Kendall Anderegg
ICPI Board Chair and President
of Mutual Materials Company

Even if You Don't Want to Receive Your Certification, You Can Benefit from the Class

You don't need to be an installer to take the course. The course is designed for all individuals involved in the residential and commercial installation of interlocking concrete pavements, including:

- Company owners and principals
- Job superintendents
- Supervisors
- Crew leaders
- Sales professionals
- Office staff

Everyone in the concrete paver installation industry can benefit from the common approach, efficiencies, terminology and best practices taught in the course.
